## Mindelheim – Historic old town

Gates and towers, churches and chapels, pointed gabled town houses in the magnificent Maximilianstraße invite you to discover and stroll. Enjoy the historical ensemble around the central Marienplatz in one of the numerous cafés. From the bay window of the town hall you are welcomed by the former lord of the town Georg of Frundsberg. The cozy alleys along the city wall offer unexpected insights and views. Treasures such as the "Durahansl", the world's second-longest clock pendulum or the award-winning nature teaching garden make the city a very special destination.

## Mindelburg

A short walk leads you to the extensive castle "Mindelburg". It was once the residence of the Dukes of Teck and the Knights of Frundsberg. With its fortified bastions, gates and moats, it still corresponds to the ideas of a medieval castle complex today.

## Kloster Irsee – Brewery restaurant with museum

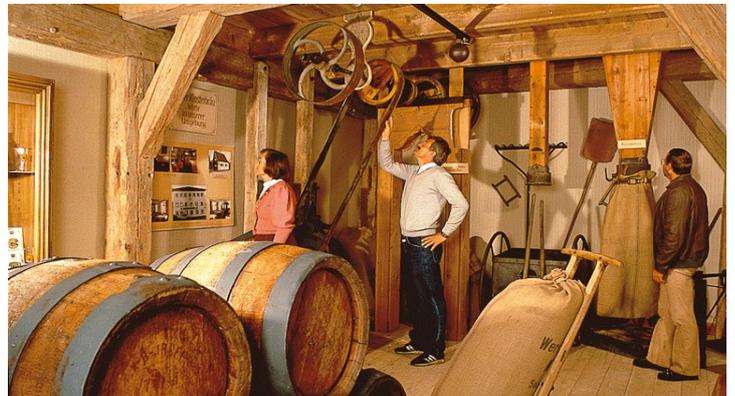

The menu includes Allgäu and Bavarian classics such as a crispy roast pan, pickled wild boar roast, roasted pike-perch and also home-made Allgäu "Kässpätzle". In addition there is originally brewed monastery beer and more. Chimney vaults, an old restaurant, distillery or monastery parlor – in the centuries-old monastery restaurant you can enjoy a pleasant, relaxed atmosphere. During the warm

season, the summer garden in the inner courtyard and the monastery garden by the water wheel attract visitors. Children have fun on the playground.

In the brewery museum of the "Irseer Klosterbrauerei" the borders between the past and the present are blurred. From the museum, visitors have a direct view into the brewhouse, walk past the fermenting vats and descend into the cool cellar vault where the monastery drink slowly and steadily matures.
